

BEFORE THE  
POSTAL REGULATORY COMMISSION  
WASHINGTON, D.C. 20268-0001

MARKET-DOMINANT PRICE CHANGE

Docket No. R2020-1

USPS NOTICE OF FILING PUBLIC LIBRARY REFERENCE  
(November 20, 2019)

The Postal Service has filed the following library references for public use in this proceeding:

**USPS-LR-R2020-1/7                      First-Class Mail Workpaper (Remand)**

This workpaper has been uploaded to the Public Library References folder on the United States Postal Service Secure Large File Transfer Web Application portal (USPS SLFT). This workpaper includes one preface and three price cap calculation files:

- CAPCALC-FCM-R2020-1 Remand Calc 1.xlsx
- CAPCALC-FCM-R2020-1 Remand Calc 2.xlsx
- CAPCALC-FCM-R2020-1 Remand Calc 3.xlsx

These files calculate the percentage change in rates for the class under three discrete scenarios. While all three price cap calculations include identical domestic rates that respond to Order No. 5302, each file treats Inbound E-Format Letter Post volume differently.

CAPCALC-FCM-R2020-1 Remand Calc 1.xlsx corresponds to Inbound CAPCALC-R2020-1 Remand Calc 1.xlsx, in which the weight of the January 1 Inbound E-Format Letter Post price change is reduced by half in the percentage change in rates

calculation, to account for the transfer of those pieces to the competitive product list on July 1, 2020.

If the Commission should grant the Postal Service's accelerated transfer request filed in Docket No. MC2019-17 today, moving up the Inbound E-Format Letter Post transfer to January 1, 2020, the Postal Service is submitting CAPCALC-FCM-R2020-1 Remand Calc 2.xlsx. This price cap calculation reflects Inbound CAPCALC-R2020-1 Remand Calc 2.xlsx's removal of all historical Inbound E-Format Letter Post volume from the percentage change in rates calculation.

Lastly, if the Commission should, over the Postal Service's objections, reject the half year and full year adjustments to Inbound E-Format Letter Post volume reflected in CAPCALC-FCM-R2020-1 Remand Calc 1.xlsx and CAPCALC-FCM-R2020-1 Remand Calc 2.xlsx, the Postal Service is submitting CAPCALC-FCM-R2020-1 Remand Calc 3.xlsx, which corresponds to Inbound CAPCALC-R2020-1 Remand Calc 3.xlsx, in which the January 1 Inbound E-Format Letter Post price change is weighted by a full year of historical Inbound E-Format Letter Post volume in the percentage change in rates calculation.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorney:

Kara C. Marcello
